EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: In the specification, page 1, line 6, after "filed January 13, 2004" insert , now US Patent. No. 7,128,547 .

2. Claims 1-24 are allowed over the prior art of record.
3. The following is an examiner's statement of reasons for allowance:

Davies (5,772,756) discloses an apparatus for producing diamond crystal growth on a seed crystal, comprises a plurality of walls forming a high pressure chamber, crystal diamond seeds, a metallic catalyst/solvent in communication with the seeds on one side and a layer of raw material such as carbon located adjacent to the catalyst layer and in communicate with the catalyst on the other side.

However, Davies fails to disclose a system in which the raw material layer is located inside the high pressure chamber in such a way that it diffuses into the catalyst layer in a direction that is perpendicular to gravity, in order to avoid detrimental effects of gravity on the molten catalyst and increase availability volumes for growing crystal inside the high pressure chamber, to reduce problems associated with differences in density and temperature gradients during diamond synthesis, and to increase diffusion of raw material by convection flow of molten material (see specification and Remark, pages 8-9).

Art Unit: 1722

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
